- Immune to the effects of water, steam, heat and frost.
- Simple to clean and maintain.
- Anti-graffiti.
- Antibacterial
- Hygienic.
- Good fire behavior.
- Excellent corrosion resistance

Game tables with 4 independent seats for fixed installation outdoors, resistant, durable and maintenance-free.

Technical characteristics

RESINS COMPACT TABLE TOP

With resins compact table top. Manufactured with compact from fibres and resins exposed to high temperatures.

These compounds make the properties of our board extraordinary for outdoor behaviour. The games are digitally printed on the compact.

Game board properties: Smooth surface with luminous finish and anti-graffiti properties. As it is a non-porous material, dirt does not adhere to the surface, making it very easy to clean.

Internal chassis of galvanized steel, injected with polyester and polyurethane core with fiberglass compact, processed with special solid resins. All sides of the table top are rounded in order to avoid serious accidents due to blows or falls.

Table top: unalterable surface with a very luminous gel-coats finish and antichoc and antigraffiti varnishes that protect the table top, achieving total protection against deterioration.

PRODUCT DESCRIPTION:

Table top main properties:

- High impact to resistance, wear and scratches.
- Immune to water effects, vapour, heat and freezes.
- Easy to clean and keep.

- Anti-graffiti
- Antibacterial.
- Hygienic.
- Good fire performance.

It is possible to include all game in the board, from 4 games in the same board, to separated. The most games demanded by our customers are chess, parchisi, oca and noughts and crosses.

Structure:

The table structure is totally anti-vandalism, manufactured in first quality galvanized steel and poliester paint finish.

The framework consists of:

- Galvanized steel frame of 670 x 670 mmm.
- Rectangular tube of 60 x 30 mm-diameter.
- Tube of 20 x 30 mm with holes to screw to the floor.
- The whole framework galvanized and welded for increased strength.

Benches

Benches are manufactured with high-density polyethylene in different colours.

Installation

The tables shall be installed on a flat and levelled concrete base. This base can be an existing floor or concrete, previously made on soft soil (earth, sand, grass ...). We also offer the possibility of embedding the feet in soft soil for later concreting.
