

Competition boxing ring dimensions combat zone 6 x 6 m, according to the Royal Spanish Boxing Federation.

Description

Competition boxing ring, modular removable with 6.0 x 6.0 m combat zone and 7 x 7 m external dimensions, manufactured in screw-retable and removable metal structure of 80x80x2mm at its base and pillars raised up to 1.0 m with self-regulating supports up to a maximum height of 1.10cm.

Floor made of afrocar plywood boards 18mm thick (12 layers), on which the plates of foam polyurethane shock absorber of 19mm D / 200 and then the trevira laminated plastic on both sides of 560 grs / m² are installed.

Fireproof and self-extinguishing B1 / M-2, in blue color, perfectly tensioned with rubber sando in all its perimeter and hidden with perimetral flap.

The ring consists of 4 horizontal 45mm diameter perimeter rope strings, with their corresponding safety foam professional protections.

In the perimeter posts they are also protected with triangular protections in colors: two corners in white, one blue and one red, according regulation.

It also incorporates manual tensor system of tension of the rope strings, with their corresponding circular protections.

All protections are easily fixed by Velcro.

Technical characteristics

Structure powder coated in the oven 200°C COLOR RAL 9005 Black or 9016 White.

Competition dimensions: 6.0 x 6.0 m (made to measure, consult other required dimensions)
