

Each set consists of two fixed posts manufactured according to European Standard EN-1271 in terms of safety, stability and strength.

Description

Set consisting of two Fixed multipurpose fixed poles of total length 3000 mm made of steel profile internally outer diameter of 80 mm. All exposed edges or corners are rounded to a radius of at least 3 mm.

Both poles incorporated double pulley, in its upper part a pulley of plastics material to prevent oxidation and locking the same, the tighten of the system is performed by rattle welded to the pole ORIGINAL GALVAN. Includes regulatory heights set (1'0, 1'55, 2'0, 2'10, 2'18, 2'20, 2'24, 2'30, 2'40 and 2'43 m.), which are reflected in the side of both poles visible .

Both poles are anchored to the concrete by a metal cylinder 90mm od, which like 400mm anchor welcomes both poles, to a physical stop made in solid steel plate bolted to the pole to withstand extreme conditions, white powder coated 200°C to prevent future corrosion allowing easy and quick maneuver anchored. RAL 9016

Technical characteristics

- They are delivered packed in a cartoon box of 300 x 24 x 20 cm.
- Total weight: 42 kg. (Weight pair including fastenins).
- Option: Fastenings (42005) and net. Not included.
