

Top competition volleyball referee chair with lower protection, front and side antillesion padding

Description

Chair for volleyball referee, designed and manufactured in circular section steel tube. The Top competition volleyball judge's chair consists of a main structure with front and side railing and an ergonomic chair that is arranged on a metallic footrest base on which an anti-slip polyethylene board is placed.

The entire upper structure is arranged on a telescopic height adjustable 80x80 steel mast in 5cm sections, and is blocked by an automatic self-locking spring-loaded lug.

The metallic bottom base with wide base to confer stability and resistance to the set, is protected with polyethylene board arranged in chamfer to avoid injuries, by hitting.
