

Sevilla Playground model. Manufactured in wood with autoclave treatment and painted with special paint for weathering.

Description

Sevilla Playground model

Manufactured in wood with autoclave treatment and painted with special paint for weathering. The panels are made of polyethylene.

Compound:

Low tower without roof that serves as access to the rest of the set. The climb to this park can be done well by a staircase that is on the side of the tower or a log ramp.

From this tower we pass through another staircase to a tall tower with a roof. This tower is closed at the bottom with panels of colors except on one of the sides that has a ladder of sticks that also allows them to climb the set. In this tower there is a ramp slide downhill in polyester.

Colors may vary.

IMPORTANT NOTE: Indicate in order observations if it is going to be installed in sand or concrete.

Technical characteristics

Dimensions:

length: 730 cm

width: 275 cm

height drop: 150 cm

Security area according to 1176: 1030 x 575 cm

(assembly not included)

No. of holes: 11
